Chairman's Desk

Sudha Rustagi College of Dental Sciences and Research aims at imparting quality education in the field of dental science. The past years have seen phenomenal growth and we owe it to the Faculty members, Staff members and Students of the college who made us proud. The college has earned a leading position across the country in its fraternity. The college produces university toppers each year to live up to the expectation of academic community. Considering that society requires contribution from an entity like us, we have been continuously providing free services to local populace in order to create awareness about importance of dental hygiene. On regular basis, dental check-up camps organized by the college help people come to know seriousness of dental health. Taking one step further, our college is also engaged in providing financial assistance to both needy and meritorious students. We are also focused on the promotion of science, fine arts, sports, dharamshalas, handicapped and disabled persons, other Public Charitable Trusts so that more and more people could be served.

Secretary's Desk

Bearing in mind that education is the only tool that uplifts the standard of society, there is a very wide prospect behind providing education by **Sudha Rustagi College of Dental Science and Research**. The college has vision of becoming source of knowledge and strengthening the people. Our dream is to be considered as pioneer institution of learning dental science. We also have a plan to make base wider from dental science to medical, paramedical, nursing and allied fields, which will help in availing medical education and health services at affordable cost to the needy ones. The college has already arranged best infrastructure, faculty, modern tools and methodologies for course delivery.

Treasurer's Desk

Smt. Santosh Gupta is a very well-known philanthropist and a renowned social worker of Faridabad since long. She also lends a helping hand to her husband Sh. Dharamvir Gupta in his social and cultural activities. She saw the light of the day while interacting with social and cultural organization and felt the need for a dental college in Faridabad. Thus Sudha Rustagi College of Dental Sciences & Research came into existence in 2002. She takes keen interest in all major activities of the college. The college strives to constantly improve the infrastructure under her able guidance. She believes in planning and optimum utilization of resources. She is a beacon for the college.

Dr K. R. Indushekar
Principal & Director
PG Studies

Principal Desk

Sudha Rustagi College of Dental Sciences & Research, welcomes the students who want to make their career in the field of Dental Sciences. Institution strives to provide all the facilities be it infrastructure, teaching, clinical training, research, sport & cultural activities. I assure that students who are trained in our college will be provided with quality education to acquire adequate knowledge, skills and carry out all the procedure appropriate and to practice dentistry to become one of the best healthcare Dental professionals. In next five years, newcomers will experience toughest challenges on the way in making their career but with guidance of experts, they will surely achieve greatest position in their personal and professional life.

Regards
Dr.K.R Indushekar

Sudha Rustagi College of Dental Sciences & Research

Sudha Rustagi College of Dental Sciences & Research was established in year 2002 under the aegis of Lala Bhagwan Dass Educational Trust (Regd.), a charitable Trust registered under the Societies Registration Act, 1860 by Sri Dharamvir Gupta, its Founder President.

He is also the Founder Chairman of Lala Nemichand Educational Trust, (Regd.) & Trustee of Shanti Devi Educational Trust. The Trusts have a deep commitment to education which it believes is the key to social upliftment and empowerment. The trust runs N.C. College of Engineering, Panipat, which has earned reputation as one of the best engineering colleges in the country. The engineering college of the Trust with world-class infrastructure is well located on a plot admeasuring 30 acres at Israna near Panipat and has produced thousands of engineering graduates, who

have secured lucrative jobs both at home and abroad through campus placements. The trust is also starting N.C. Medical College and Hospital at Israna Panipat. Sudha Rustagi College of Dental Science & Research has been constructed on more than 10 acres of land. College is playing a vital role in providing excellent education in the field of Dentistry.

Along with the academics, the institute lays equal emphasis on imbining in its students high regard for moral and ethical values.

The graduates from this college have created a niche for themselves in getting placements in Armed Forces, Paramilitary, Dental colleges, reputed Corporate &

Why study at Sudha Rustagi College of Dental Sciences & Research, Faridabad

College has been honored with VIIth All India Excellence Award by the Indian Achievers Podium 2011. It has been adjudged as the Best Dental College in Haryana (under Private college category).

The Faridabad Advantage

Located in a pollution-free, serene, stimulating and natural environment-away from the hustle and bustle of the city just 10 kms away from South Delhi in New Faridabad, a part of National Capital Region, offers an ideal atmosphere for learning, research and Scholastic pursuits. Not only are we in one of the capital's most vibrant areas to live, we also serve a diverse local community where you will develop your clinical skills and knowledge. Moreover, Sudha Rustagi College of Dental Sciences & Research offers you many exciting opportunities to develop an understanding of health and the treatment of disease in a global and international context. Many curricular and extra-curricular developments are underway to support learning in this area.

Campus-based

The college has been constructed on more than 10 acres of land at Kheri Road on the outer fringe of city of New Faridabad, an industrial hub on the southern border of Delhi. It is excellently connected with Delhi. The college has the locational advantage of being surrounded by about 85 villages and a large no. of Real Estate Groups. This has significantly increased the number of patients (Daily Average Dental OPD of 550-600 Patients) for clinical training of students. The college offer extensive campus-based facilities. This promotes a sense of community and encourages an active social life.

State-of-the-art clinical facilities

We have modern state-of-the-art buildings alongside more traditional facilities such as our fantastic library. The Dental College now contains a clinical skills laboratory, which closely simulates the real clinical experience and is an invaluable learning facility, helping new students prepare themselves well for patient care work in clinics.

Student support

We have a highly developed network and academic support. At every stage of their studies our dental students receive support from staff who are experienced in helping and advising students.

Mentorship: Mentorship is also introduced in the institution for the benefit of the students & continuous monitoring & evaluation of student's progress is done.

The focus of the faculty is facilitating the student's learning process. The other key feature practiced by the faculty is of Mentor- Mentee concept. Each Faculty member is appointed as Mentor to a student or a team throughout their stay during the course, which plays a role of a Guide, an Elder Associate & a Guardian to provide students with personal touch. The highly qualified faculty is the greatest asset who instead of only theories, bring their experience with them into the classroom.

Friendly environment

We pride ourselves on being a friendly college, with excellent staff-student relationships.

International Students

We have a long history of welcoming international students from many countries. For successful applicants, our international student welcome programme is designed to make you feel at home straight away. The programme begins with collection from the airport and an induction that includes practical advice about living and studying in Faridabad. You will also have the opportunity to meet other international students.

Zaid J.J. Nassar

Joined in Year 2014 as a Palestinian national student. "Love Teaching methods & atmosphere. Staff & Students are very cooperative. Would suggest every student to join this College.

Ahmad Zubair Zabehe (Afghanistan National)

Joined in Year 2011 "Excellent College, strict about studies, rules & attendance. staff members are very helpful that's not found in any college.

Abdul Tabab (Afghanistan National)

I, Abdul Tabab joined this institute in 2011. It was a huge jump from Afghanistan to Faridabad. Initially it was, difficult for me to bridge the gap between the two places but the perfect infrastructure, the supportive teachers and friends provided a peaceful and safe environment. The library is equipped with International journals that keep me updated with the recent research in the field of dentistry. I am quite optimistic that the knowledge and experience I gain will be helpful in my future endeavors.

What Can I Study at Sudha Rustagi College of Dental Sciences & Research, Faridabad?

1. Undergraduate: BACHELOR OF DENTAL SURGERY (BDS)

Duration: 5 years Course (100 Seats)

- Recognized by Ministry of Health & Family Welfare, Government of India & Dental Council of India.
- Affiliated to PT. B.D Sharma University of Health and Sciences, Rohtak.

The College aims to provide a contemporary clinical education and training, using a wide variety of high quality placement providers to ensure that graduates meet and exceed the registration requirements of the Dental Council. Further, in addition to surpassing the minimum requirements of our regulators, our programmes aim to produce a graduate that:

- Has the knowledge to have a critical understanding of the complex issues involved in the scientific basis of Dentistry.
- Understand and are committed to evidence-based practice.
- Is reflective and committed to lifelong learning.
- Take a patient-centred approach to clinical care within the dental team.
- Apply clinical skills, knowledge, and behaviours in independent dental practice.

2. Postgraduate: MASTERS IN DENTAL SURGERY (MDS)

Duration: 3 years Course (27 Seats)

- MDS Course in the Eight Dental Specialties
- Recognized by Ministry of Health & Family Welfare, Government of India & Dental Council of India.
- Affiliated to PT. B.D Sharma University of Health and Sciences, Rohtak.
- Post-Graduation was started in 2009.

The nature of the taught courses with high clinical experience dictates that for each programme cohorts are relatively small and staff: student interaction is high. The college has been offering postgraduate taught programmes in Endodontics, Prosthodontics, Oral Surgery, Orthodontics, Pedodontics, Periodontology, Public Health Dentistry, Oral Pathology. It is almost a decade since the institution has started; we have progressed to become a premier full-fledge Post-Graduate teaching and research institute in the State of Haryana.

MOU with Foreign Universities

- The Dental College has signed an MOU with university of Sains, Malaysia for research exchange.
- Programme for Diploma in Laser therapy in Dentistry with AACHEN University, Germany.
- Another MOU with one of the universities in UK is under process.

Key benefits of our innovative curricula for BDS (Undergraduate Students)

Early clinical experience

An early introduction to clinical topics provides a context for your learning and makes studying more enjoyable and relevant. In the first two years, you will be able to start applying your growing knowledge in a clinical context. Dental students have the opportunity of studying at a variety of community and dental clinics. These experiences will help you appreciate the social factors that influence health and healthcare. The diversity of the local population will give you a valuable insight into the issues affecting different social classes and ethnic groups.

Wide-ranging experience

You will develop your clinical skills through a variety of clinical attachments at Sudha Rustagi College of Dental Sciences & Research, Faridabad. Community general practice sessions are integrated into hospital attachments complementing the clinical skills teaching. This gives you a useful practical experience of a diverse range of healthcare settings.

Excellent patient care

Throughout our programmes we emphasise the development of communication skills that are essential to building good relationships between doctor or dentist and their patients. Our curricula aim to enhance understanding of ethical and moral dilemmas relating to medical and dental practice.

- Care of dental patients: You will start to experience the clinical environment in your second year and become involved in the care of your own patients during your third year. You will take part in examination, diagnosis, assessment and the prevention and management of disease, working alongside therapists and hygienists also training at the School.

Key benefits for our MDS (Postgraduate Students)

Teamwork

We encourage a team approach throughout. In addition to working with fellow students on study projects, these experiences will help you to appreciate better the different roles involved in the delivery of dental services.

Seminars

- **Lectures and symposia:** In the Dentistry course, symposia aim to integrate learning by focusing on all aspects of a particular topic and making connections.
- **Communication skills:** You will have practical training in interviewing techniques and special sessions devoted to communication between doctors or dentists and their patients.
- **Clinical Skills:** In the early stages of the course this involves working with General Practitioners and community tutors.
- **E-learning:** You will have access to a large amount of teaching material via 'Blackboard'

Teaching And Learning Priorities

1. Enhancing the quality of all our taught programmes.
2. Attracting the best students to the School.
3. Optimising the student experience.
4. Enhancing the efficiency and flexibility of our programmes.
5. Increasing postgraduate capacity.

Teaching facilities and learning resources

Students will be able to make use of excellent facilities and learning resources during their studies.

Degree Programme in Dentistry

Dental curriculum

The five-year course leading to Bachelor of Dental Surgery provides a globally aware, student-focused, integrated, multidisciplinary approach to acquisition and use of knowledge, which:

- Promotes oral health and provides patient-centred, evidence-based care;
- Develops knowledge, skills values, attributes and behaviours of a dental professional
- Recognises the need for lifelong learning and professional development
- Promotes the awareness of knowledge creation.

These provide the means to gain the appropriate knowledge, skills, attitudes and understanding of scientific and clinical principles so that you are able to apply them to the prevention, alleviation and treatment of oral diseases. Great emphasis is placed on the acquisition of clinical skills and professional attributes by working closely with your teachers, peers and other members of the dental team. You will provide patient care in a range of settings, exposing you to a diverse population group and a variety of opportunities for professional development.

Clinical and communication skills

We emphasise the development of clinical and communication skills in oral healthcare, history-taking and patient examination. You will practise communication skills in small groups using role-play with each other and simulated patients. Clinical skills are taught in our clinical skills laboratories.

Ethics and jurisprudence

Through case-oriented group discussions, you will gain an insight into the salient aspects of ethics and jurisprudence (law), which relate to working in dental practice. Topics discussed will include informed consent, truth telling, confidentiality, medical and dental experimentation and research, rights of children, rights of mentally ill people and those with a learning impairment and the moral and legal obligations of the dental practitioner.

Annual assessments

Annual examinations using a range of assessment methods allow you to demonstrate the knowledge, skills and attitudes you have developed throughout the programme. These assessments will also contribute to your final degree result.

Academic Results

Success of any institution is judged by the outcome and achievements of the young professionals graduating out of it. The basic aim of providing quality education has been successfully achieved when one looks at University merit positions secured by students of this college till date.

Students of our college have also been adjudged as the best meritorious outgoing student for seven consecutive years. Students of the college have proved themselves to be competitive & competent in all fields. The college maintains excellent academic record. It is credited with producing the largest number of University Toppers year after year.

The college is committed to maintain and improve this record in the years ahead **Sudha Rustagi College of Dental Sciences & Research** students have always excelled in academics. They have brought Laurels to the college by being amongst the ten top performers in the university.

In the Annual BDS examinations conducted by Pt. B.D Sharma university of health Sciences Rohtak in July-August 2014, out of first ten merit positions our students are among the top ten position amongst all Dental colleges in Haryana.

Faculty

The institute has a widely experienced and diverse faculty drawn from academia, research and dental care Industry. The institute provides top class resource support to faculty in terms of computing, research, library and training facilities. The focus of the faculty is facilitating the student's learning process. Most of the curriculum subjects follow the live and practical learning, constructive lab modules, live project work.

We have a unique blend of highly qualified experienced Dental & Medical dedicated Faculty. Faculties have an opportunity for continued academic growth & Professional development. They are encouraged to take part actively in National & International Conferences, Workshops & Convention & Research methodology Programs. Many of our faculty members are also of National repute and are working as General Secretary, Executive committees members & Editors of the various specialty Journals.

**Principal & Director
PG Studies**

Dr. K.R. Indushekar MDS, Prof & HOD has been a former Principal of KLE Dental College, Belgaum. He is ex-Secretary of Indian Society of Pedodontics & Preventive Dentistry. He is a guest speaker of national repute. Served as a member of various committees like Board of management, Academic Council etc. at KLE University Belgaum, Karnataka and member of academic Council Pt. B.D Sharma University of Health and Sciences, Rohtak. Dr. Indushekar: Member BOSTerthanker Mahavir University Moradabad. External member of Departmental Promotion Committee Sharda University Noida.

Department of Pedodontics & Preventive Dentistry:

Pediatric Dentistry focuses on the comprehensive oral health care of child as a whole. It emphasizes on preventive dental needs of the children promoting awareness among the public especially, parents & children by conducting various school dental health awareness programs.

The philosophy employed at the department gives due consideration to the feelings and anxiety concerns of the child dental patient. The treatment approach is based through understanding and clinical application of the emotional and physical development of the child. A happy zone consisting of dedicated play area, small chairs, and television with DVD player which run cartoon films and other informative programs help us establish a bond with our little patients and assist in delivering best possible dental treatment in a stress-free setup.

For children who are too young or mentally or physically challenged, procedures are safely accomplished under sedation or general anesthesia. Department also prides itself in processing all the latest equipment and materials required for the treatment and management of children and for training the undergraduates and post graduates.

Department of Public Health Dentistry

Dr. C.M. Marya: (Dean Academics)

MDS, Prof & HOD is serving as a reviewer in the editorial board of various international journals. He is the Editor-in-Chief of the Oral Health and Community Dentistry. He has authored many books. He has authored the Textbook of Public Health Dentistry, Practical manual of Public Health Dentistry and co-authored the Textbook of Physiology for Dental students to name a few.

Department is fully equipped with ultramodern dental chairs & most sophisticated gadgets to increase awareness about dental health in general population. Department is actively involved in dental camps & awareness programs specifically targeting rural population & school-going children. Department has acquired 2 state-of-art air-conditioned mobile dental vans equipped with most updated instruments & gadgets.

The department also runs 2 Satellite Clinics for the benefit of patients. The clinics are well equipped with all facilities to ensure quality care.

Experience:29Years of Teaching experience

Department of Orthodontics & Dentofacial Orthopaedics

Dr. Gurkeerat Singh-(Vice Principal) -MDS, M. Orth. Dip. IBO Prof. & HOD is registered with the Royal College of Surgeons, London and Royal College of Physicians and Surgeons Glasgow. He is a Diplomate of the Indian Board of Orthodontics. Dr. Singh has over three dozen publications in various Indian and international journals to his credit. Most noteworthy is his "The Textbook of Orthodontics", the first full- color textbook on the subject by an Indian author and another text "Mini Atlas of Orthodontics" are well accepted by students nationally & internationally. He has presented numerous papers and has been a guest

speaker at various national & inter-national conferences and student conventions. He is the vice-President, and also Editor of the Journal of the Indian Orthodontic Society. He is an executive member of the Delhi Dental Council, Indian Dental Association and the Dentistry Sectional Committee, Bureau of Indian Standards.

Orthodontics is the branch of Dentistry that deals with correction of tooth and jaw mal-positions, in children & adults, thereby, improving esthetics along with function.

The postgraduate wing has separate wet, dry lab, a cephalometric tracing room photography room and a Seminar room equipped with latest audiovisual aids.

Department of Prosthodontics & Crown & Bridge:

Dr. Salil Pawah Prof. & HOD is a graduate from Karnataka University and Post Graduate from RGUHS. He is a member of IPS for the last 13 Years. He is also a lifetime member of IDA & he has carried out many courses on "Post & Core", "All Ceramics" & "Over dentures". He has also been presenting papers at various national conferences, in which he has been awarded with best papers many times. Also has many Publications in his name in various specialty journals.

The department deals with replacement and maintenance of missing oral structures. The main aim of Prosthodontics is to improve the dentally crippled patient with artificial substitutes to improve appearance & this masticatory efficiency. In addition to routine denture & bridge prosthesis, the department is actively involved in highly advanced prosthetic work such as dental implants, full mouth rehabilitation, treating TMJ disorders, cast partial dentures, post & core restorations, all ceramic restorations, obturators & other maxillofacial prosthesis.

Department of Conservative Dentistry & Endodontics:

Dr. Rakesh Mittal- MDS, Prof & HOD has been an internal as well as external examiner to both national & international Universities and is actively involved in sharing his knowledge at various specialty conferences.

Conservative dentistry embraces the practice of operative dentistry and endodontic. It is a branch of dentistry that deals with the diagnosis, treatment, and convalescence of the defects of tooth and maintains the biological health & aesthetics. It includes various types of tooth colored and metallic restorations of

individual teeth, smile designing, bleaching, etc. It also involves performing root canal treatment and associated surgical procedures to get rid the teeth of its offending malady of the teeth.

.The Graduate & Postgraduate section has state-of-the-art equipment that includes digital radiography, intraoral imaging, apex locators, reduction gear hand pieces, thermoplastisized G.P. System and surgical operating microscope.

The department aims at providing quality treatment to the patients and also undertakes various research programs. All treatment procedures are carried out under supervision and strict asepsis is maintained throughout

Department of Periodontology:

Dr. C.S. Baiju MDS, Prof & HOD is a periodontist of repute and has a vast experience in various surgical procedures. Dr. C.S. Baiju is an examiner for both Undergraduates and Post Graduates in Periodontics of different universities of India. He is a scientific reviewer for journal of Indian Society of Periodontology, and has various Publications on his credit.

The department deals with the diagnosis, treatment & prevention of various diseases of gums & supporting bones. The department is well planned & has separate UG & PG sections, and is equipped with state-of-the-art equipment's & materials such as bone grafts membranes, dental implants & laser surgical unit for quality treatment. During the UG programme, the students are trained with basic skills to render non- surgical & preventive periodontal procedures. During PG training program, the students are given opportunity to learn & master non-surgical & surgical procedures. Various clinical Research studies are going on as a part of PG Curriculum under the supervision of expert faculty members.

Department of Oral & Maxillofacial Surgery:

Dr. Ashish Gupta- MDS, Prof & H.O.D is a well renowned oral & Maxillofacial surgeon with a number of Publications and a very active member of Association of Oral & Maxillofacial Surgeons of India.

A State- of- the- art department of oral & maxillofacial surgery has become a regional center of excellence in short span of time. A dedicated & competent team of maxillofacial surgeons are dealing with complicated cases like resections, orthognathic surgeries, grafts, reconstruction, and tumors on routine basis. Apart from this hundreds of minor surgical cases are being performed by students &

teachers. International standard operations theatres & 120 bedded multispecialty hospital act as a backup so as to accomplish most complex cases. Departments O.P.D boasts of providing high quality treatment for various oral & Maxillofacial problems under laid down Protocols.

Dr. Yulia L Mathias, Prof. & HOD, is a graduate and post graduate from MCOADS, Mangalore. She has been an active academician with teaching experience from the colleges in the south as well as north India. She has been an examiner for various universities. She believes in nurturing her students to be better humans alongwith being good dentists.

The department of Oral pathology deals with histopathological diagnosis of oral diseases. The department is well equipped with a Trinocular Research microscope with digital imaging software and a projection system along with Monocular and Binocular microscopes for students, a well equipped Histopathology and Hematology lab with an Automatic tissue processor and innumerable teaching models. The department is also

involved with teaching Dental Anatomy and Histology to UG students which involves learning tooth morphology and microscopic appearances of the tooth and related structures.

Department of Oral Medicine & Radiology

Dr. Gaurav Sharma-MDS, Prof. is a reviewer in editorial board of international Journals like JAHR. He received the best article award for "Multiple papillomas" in IAOMR 2007 Oral Diagnosis & Medicine is that branch of Dental Science which deals with the study, diagnosis and Medical management of Oral and Oro-Facial diseases, emphasizing the concept of systematic disease in role of Oral sepsis and oral manifestations of systematic diseases with an objective of maintaining proper oral health for general health. Oral diagnosis is the art of identifying the diseases, defects, dysfunction deformities by scientific

methods. Radiology is included in this specialty and it is the study of radiation and its uses in taking radiographs for oral and or facial diseases. The interpretation of these radiographs helps in proper diagnosis.

The department has adequate space for oral diagnosis, Oral Medicine, and Dental Radiology. The department is equipped with Dental Chairs with units, special equipments like air rotor, Intra oral periapical, RadioVisual graphy & Intra oral camera. The department has sufficient equipment for sterilization. Radiology section has 100 MA X-ray units for skull and extra oral radiograph, Digital cephalogram and orthopantomograph, with cephalostat, mobile X-Ray units & intra oral x-ray units. The radiology department is attached with a dark room with all provisions.

The eminent faculty is headed by Principal & Director PG Studies Dr K.R Indushekar.

Shanti Devi Memorial Hospital a 120 bedded multispecialty hospital is in the Campus. It has got state of the art infrastructure, latest equipment and all the modern facilities. The hospital has a Medical, Surgical, Gynecology, Orthopedics, Eye, ENT, Pediatrics & Radiology Departments along with a well-equipped Physiotherapy department.

These facilities are under the care of highly qualified fulltime specialists. There are two well-equipped major OTs in addition to one gynae OT. We have a fully equipped ICU. 24 hours emergency services with ambulance services. The Medical facilities being provided by the Hospital is a boon to the residents of Greater Faridabad and 85 villages around us.

All wards and ICU have central oxygen supply facilities. There are well maintained general wards, semi private and private wards to cater the needs of all the citizens, pregnant women and children. MOU is signed between the hospital and the Rastriya Swasthya Bima yojana under which hospital treats below poverty line people. Free medicines are distributed to all the needy patients in the camp and free to and fro transportation is provided to all the patients from the camp area to the hospital.

Every year blood donation camps are held, many students & staff volunteered to donate the blood and 101 units of blood were collected in February 2013 in collaboration with Rotary club Faridabad ASTHA.

Research

The College undertakes world leading research which aspires to have a significant impact on improving population oral health, reducing inequalities and improving on the delivery and quality of dental services and clinical care. The School has four priorities for the future:

Research priorities

1. Improving our understanding of the development and progression of oral and cranio-facial conditions.
2. Creating innovative and effective treatments, service designs, and public health interventions.
3. Testing the costs and effects of interventions to prevent or manage oro-facial conditions.
4. Identifying the means of implementing cost-effective interventions into dental services.

Social Responsibility

The College is engaged in improving the oral and craniofacial health and well being of people locally, nationally and worldwide. There are two main goals:

1. Increasing our commitment to local communities through health and education.
2. Improving the dissemination and impact of our world-leading research nationally and globally

Facility

Library

Library is one of the most important knowledge Centre of any educational institution. The structural area of the library building is divided into different sections like Reference Section, Journal, Periodicals, Digital Computer, Audio-visual Section, General Reading Room, Newspaper and Photocopy.

College Library with its rich collection of **more than 5500 books, 200 national, international Data's & E-journals** and continuous additions shows our commitment for the welfare of students who desires and deserves the best in their academic life.

A digital library exists with large number of E-books operating with a large no. of Desktops, World Class servers & a **Wi-Fi campus to ensure mobile computing at all the locations. Internet of 8 Mbps helps to support our systems.**

The information updated on a regular basis incorporates the latest developments in the medical, dental and healthcare arena thereby keeping its users abreast with the latest advancements across the globe. This feature makes our information resource access facility a unique system.

Girls & Boys Hostel:

Separate affordable & comfortable accommodation is available for both boys & girls. The hostels are inside the campus guarded strictly by Qualified Security guards round the- clock. Ensuring the safety & maintenance of absolute discipline among the students. The well furnished rooms are provided with all the required comforts & amenities including hot water, 24 hour Power backup, laundry, Wi-Fi connectivity & Recreational facilities like Television, table tennis, badminton, chess, carom and fully equipped Gymnasium in both the Hostels. Mess facility is a integral part of the hostel which provides homely & comfortable stay with the sense of camaraderie & Fraternity among the students. The

dining halls are spick-and-span with adequate seating capacity. different varieties; the healthy & hygienic food served is a combination of different delicious cuisines & have different varieties which is fine tuned to suit Indian taste buds & eating habits. Each hostel is managed by separate Male & Female experienced wardens. A home away from home, is what the students feel at our hostel.

Dental Hospital & Research Centre:

There are separate UG & PG dental clinics & laboratories for each specialty. Each clinic is equipped with the latest state-of-the-art instruments and equipment's, teaching tools etc. beyond the curricular requirements. Most of the instruments and equipments are imported from Dabi Atlante Belgium, Brazil, Germany USA etc. and are of reputed international make which keep the students abreast with the latest technological innovations and advancements in the medical practice throughout the world. At the same time, adequate safety measures are taken in setting up these laboratories to prevent accidents and radiation hazards etc. All these equipments are subjected to preventive maintenance and calibrated regularly to ensure proper working for accurate results.

Free Dental Camps:

The institution is providing its best clinical training to UG & PG for quality Dental and Medical care of the community at large. The institute contributes to philanthropic services as well. Two fully equipped air-conditioned Dental Mobile Ambulances are in use to organize free Dental Camps in the surrounding localities where patients are offered free consultation, and treatment. Camps are held in rural and slum areas thrice in a week. School dental health camps are also conducted to educate and motivate the school children and the teachers regarding dental hygiene, oral health care and the emergency management of the dental trauma. Even for the industrial workers and old age home educational camps are held. Nearly 1000 dental camps have been held and till date approximately 1.36 lacs patients have been screened and treated for dental problems.

Students play an active role in these camps under the supervision of their teachers. Camps serve the twin objective of practical exposure to the students and service to humanity.

Satellite Clinic

Extra-Curricular Activities

The college offers ample scope for all-round development of students' personalities. It offers fine facilities for indoor games as well as outdoor sports, inter-collegiate competition, and provides the forum for cultural and creative expressions. Ample attention is given to keeping the students physically fit. There is an excellent playground in the campus with courts for Basket

Ball and Volley Ball. Modern facilities for physical conditioning are available at the indoor multipurpose Gymnasium. Both Intramural and extramural activities are planned to ensure regular participation of students in games and sports activities.

Academic Activities

Convocation

SRCDSR hosted its first Convocation on 3rd April, 2013. On this grace filled solemn Occasion, college released its Souvenir to highlight the achievements of Faculty & students in Academic & Extra-curricular spheres of the college. First Convocation established a benchmark in the history of the institution embracing the Graduates & Post-Graduates. It is a very significant milestone in the life of aspiring students. It is a day to feel enriched & competent to face the challenges of the future and to plan life accordingly.

On this day 489 BDS Graduates from 2008-2012 were conferred with degrees from MDU & 13 MDS Graduates of 2012 from Pt.B.D Sharma University Rohtak being conferred with BDS & MDS degree.

For students this day marks milestone for proving to the world their individual worth.

Events conducted by us:

CDE Programme, PG symposium & inter disciplinary clinical meet & scientific research discussions are held regularly in the college. In the last 3 years 30 CDE Programme & workshops have been conducted by all the departments. The PG & Faculty are oriented to research methodology & scientific paper work in the form of posters & Oral presentation and Publication's. Speakers of not only national repute but international speakers are also invited as guest Lectures. Mr. Mark Chapman from Germany, Dr. Tarlochan Singh of USA, Dr. Barry Gibson from Sheffield university, UK and recently Dr. Amy Gan from Malaysia and many other eminent personalities have visited the institution and has exchanged their thoughts.

Scientific Research Papers are being published in national & international journals and till date nearly 260 publications are done both by staff & PG of which 17 are local, 14 state level, 135 are National & 95 are International Publications. Our Post-graduates being awarded the best papers bear testimonials to our excellence. Nearly 25 best scientific Posters & Paper Presentations awards are achieved in various categories at National level both by staff & PG in 3 years.

Lucrative Earning Prospects for a would-be-Dentist

Dentistry, as a profession offers the following career paths:

1. BDS degree holders can begin their career as practitioners in government hospitals, private nursing homes, industrial and corporate hospitals. Establishments like dental Colleges Defense Service, Railways, and Ordnance Factories also employ Dentists for hospitals run by them.
2. Specialized degree opens up more career opportunities in teaching departments in dental colleges and research institutions like Indian Council of Medical Research (ICMR)
3. Those who are interested in social service can join NGOs.
4. Moreover, a lot of career opportunities are available abroad for Indian dentists in countries like USA, UK and Australia.
5. Apart from these, dentists could also work in the Research and Advisory functions of pharmaceutical and other companies producing oral Health care products like toothpaste, mouth wash, and gum care products.
6. Self-employment is also a promising avenue. With gaining experience, one can start his/her own clinic in their own Premises.
7. Easy migration and practice or teaching to western Countries.
